One Day Workshop
on
Capacity Building Workshop on Attainment of CO & PO

Organised by IQAC, CSIBER

Date: 5th January 2024 **Time:** 11 am to 4.00 pm

Location: CSIBER Institute, Kolhapur

Resource Person: Dr. Hemlata Gaikwad

1. Introduction

A one day workshop was organised by IQAC, CSIBER on 5th Jan 2024 in CSIBER institute on the topic Workshop on Capacity Building Workshop on Attainment of CO & PO by Dr Hemlata Gaikwad an Associate Professor at RIT.

This workshop aimed to provide faculty members with a comprehensive understanding of Program Educational Objectives (PEOs), Program Specific Outcomes (PSOs), Program Outcomes (POs), and Course Outcomes (COs). The primary focus was on effective mapping of COs with POs and exploring various methods for assessing CO and PO attainment.

2. Workshop Contents

The workshop defined Program Educational Objectives (PEOs) and emphasized their significance in aligning with the program's mission and vision.Participants learned about Program Specific Outcomes (PSOs), their importance in differentiating the program, and how to ensure their alignment with PEOs. The workshop guided participants on aligning Program Outcomes (POs) with PEOs, PSOs, and industry requirements. Participants learned to define specific and measurable Course Outcomes (COs) for each course and align them with the program's POs.

The workshop explored various mapping techniques, using Bloom's Taxonomy and emphasized the importance of clear and justifiable mapping using matrices. Participants learned about direct and indirect methods of assessing CO and PO attainment, utilizing various assessment tools, and analyzing the results.

3. Key Takeaways

- Faculty members gained a deeper understanding of the significance of PEOs, PSOs, POs, and COs in the curriculum.
- They learned effective strategies for mapping COs with POs and ensuring alignment across all levels.
- The workshop provided insights into various methods for assessing CO and PO attainment, including both direct and indirect approaches.
- Faculty members were encouraged to implement the learned concepts in their respective courses to enhance student learning outcomes.

4. Conclusion

The workshop on CO-PO Mapping and Attainment proved to be highly beneficial for the faculty members. It provided a valuable platform for knowledge sharing and discussion on best practices in curriculum design and assessment. The insights gained from this workshop will undoubtedly contribute to improving the quality of education and enhancing student employability.
